PROFESSIONAL SUMMARY

Aspiring Communications Engineer with a strong academic record (GPA 4.92/5) and hands-on internship experience in telecom networks. Recently completed an eight-week Nokia internship focusing on LTE, wireless, optical communication, cybersecurity, and satellite communications. Fluent in English, with solid teamwork and presentation skills demonstrated through senior-level briefings. Seeking a professional role in large communication companies where rigorous technical work, cross-functional collaboration, and continuous learning are valued.

EDUCATION

Bachelor of Science in Communication Engineering, *Princess Nourah bint Abdulrahman University*, Riyadh, Saudi Arabia 2027

EXPERIENCE

Telecommunications Engineering Intern, *Nokia (Internship)*, Riyadh, Saudi Arabia 2025-06 – 2025-08

- Completed an eight-week summer training program (June 22 – August 14, 2025) incorporating core telecom topics: introduction to telecom systems, LTE networks, wireless and optical communication, cyber security, mobile core, and BSS systems.
- Delivered a final project presentation on NTN satellites (LEO) to Nokia senior officials, including analysis of fixed wireless access (FWA), Direct-Device connectivity, 5G integration, and remote-area coverage.
- Gained exposure to network infrastructure, with hands-on discussions on network architecture, security considerations, and performance metrics.
- Enhanced soft skills (interview and presentation techniques) through structured training and stakeholder-facing deliverables.

Volunteer Member, *Princess Nourah bint Abdulrahman University*, Riyadh, Saudi Arabia 2023 – 2025

- Active member of the University's Sustainable Development Club, contributing to student activities and peer learning.

PROJECTS

NTN Satellite Project (Nokia Internship) LTE, 5G, Satellite Communications, FWA, NTN analysis Explored Low Earth Orbit (LEO) NTN satellites and their application to modern telecommunications. Analyzed Fixed Wireless Access (FWA) and Direct-To-Device connectivity, with emphasis on 5G integration and coverage in remote areas. 2025 - 2025

SKILLS

- English (Fluent)
- Python
- C#
- Microsoft Office
- Teamwork
- Strong communication and presentation skills
- Telecommunications knowledge
- Wireless
- Optical Communication
- Communication Networks

LANGUAGES

- Arabic | English (TOEFL iBT Score 72 | 2022)
